

# Presentation Power!

Avoiding death by PowerPoint

- .No more templates—Let the slide be your canvas**
- .No more clip art—Use big, bold images**
- .No more bullets— Save most text for handouts**
- .Keep it short—20 minute intervals with frequent breaks**
- .Incorporate video and music**
- .PowerPoint is not the presentation, you are!**

Yellow on blue works great!

We process images way faster than text!
