

Can I Sniff Your Hair?

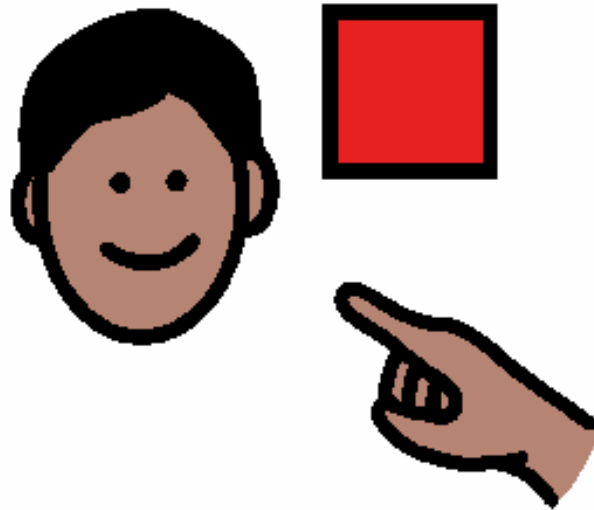

A Social Story for
Aaron

Many things smell good.

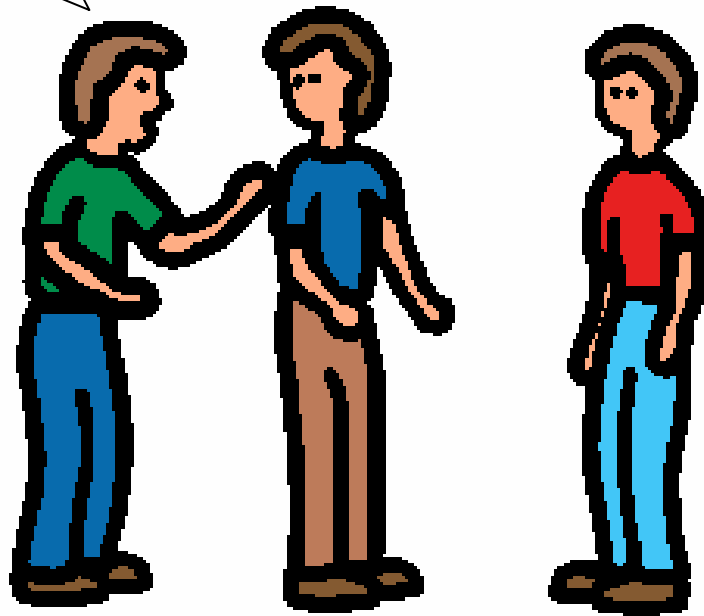

If the thing belongs to me, I can usually smell it whenever I want.

If the thing belongs to someone else, I can ask if I can smell it.

"Can I sniff your hair?"

I can say, "Can I sniff your hair?"

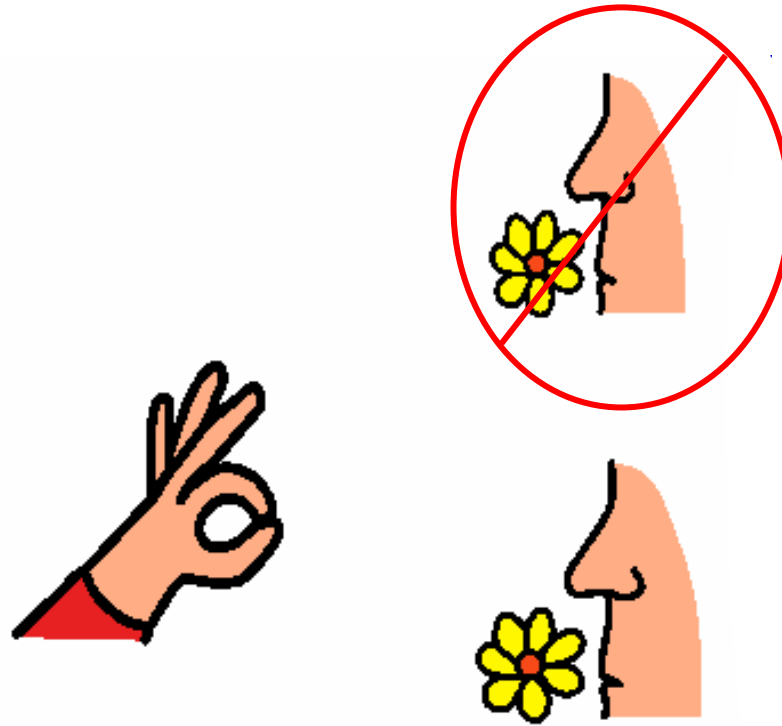

If they say "Yes", I will know it is ok to sniff.

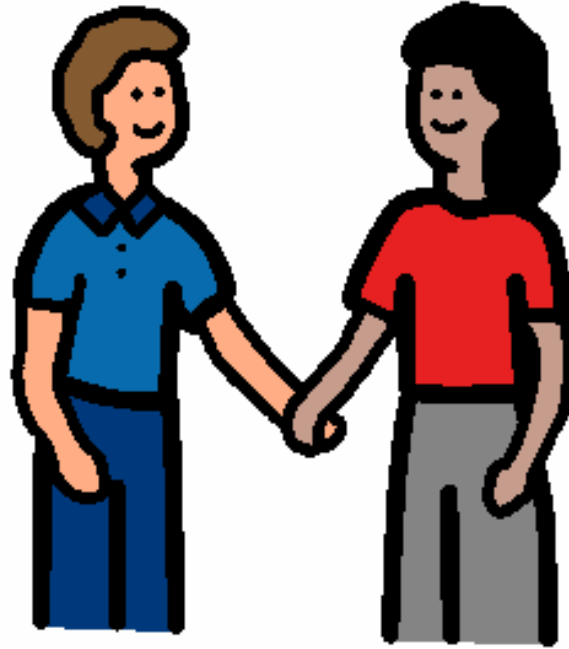

If they say "No", I will know it is not ok to smell. Some people do not like to be sniffed.

I can tell them, "Thanks anyway.
Maybe next time."

It is ok to only sniff sometimes.

Most people will like it if I only sniff them when they say it is ok.

Can I sniff your
flower?

I will try to sniff things that do
not belong to me only if I get
permission.
