

Why Do I Have To Wear A Seatbelt?

A Social Story
For
Wendy

This is a picture of Mom's car.

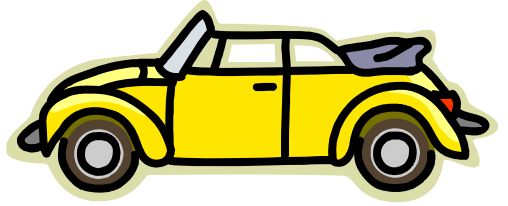

Sometimes I ride with Mom in
her car.

This is a picture of Dad's car.

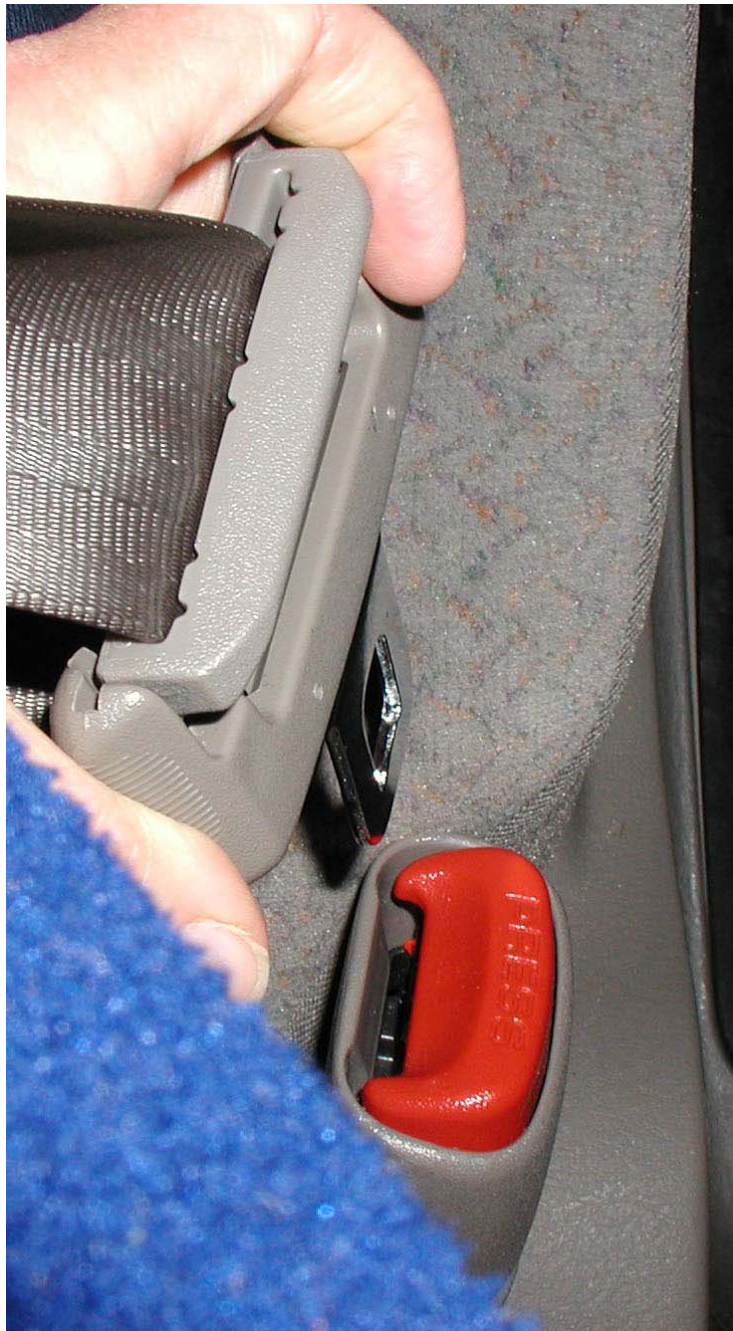

Sometimes I ride with Dad in his
car.

Sometimes I ride in other cars.

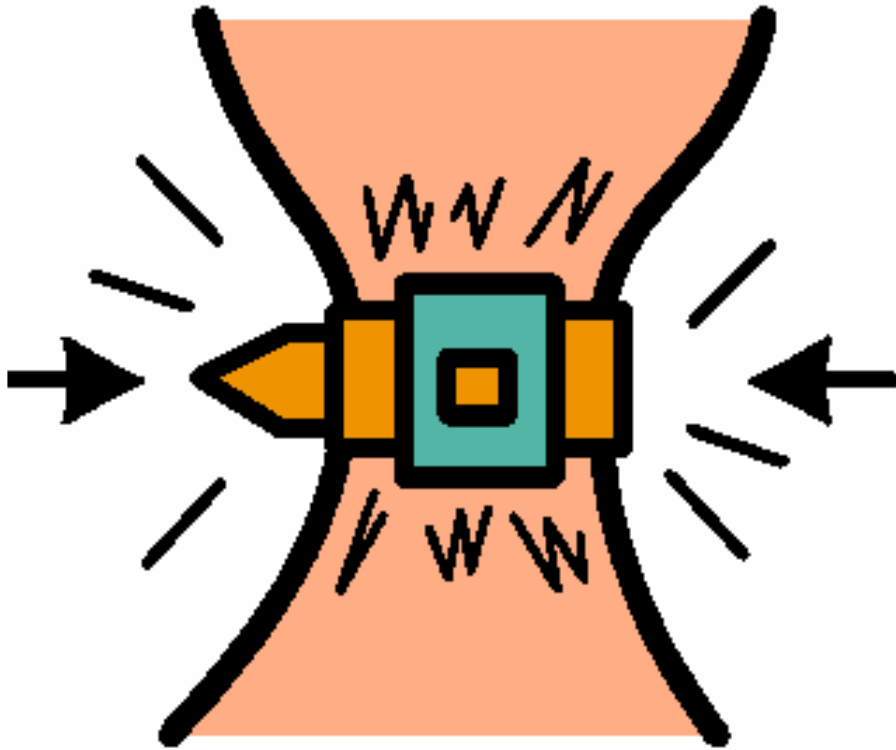

Most people wear a seatbelt when they ride in the car.

Seatbelts help keep us safe when we ride in the car.

Most people like to stay safe in
the car.

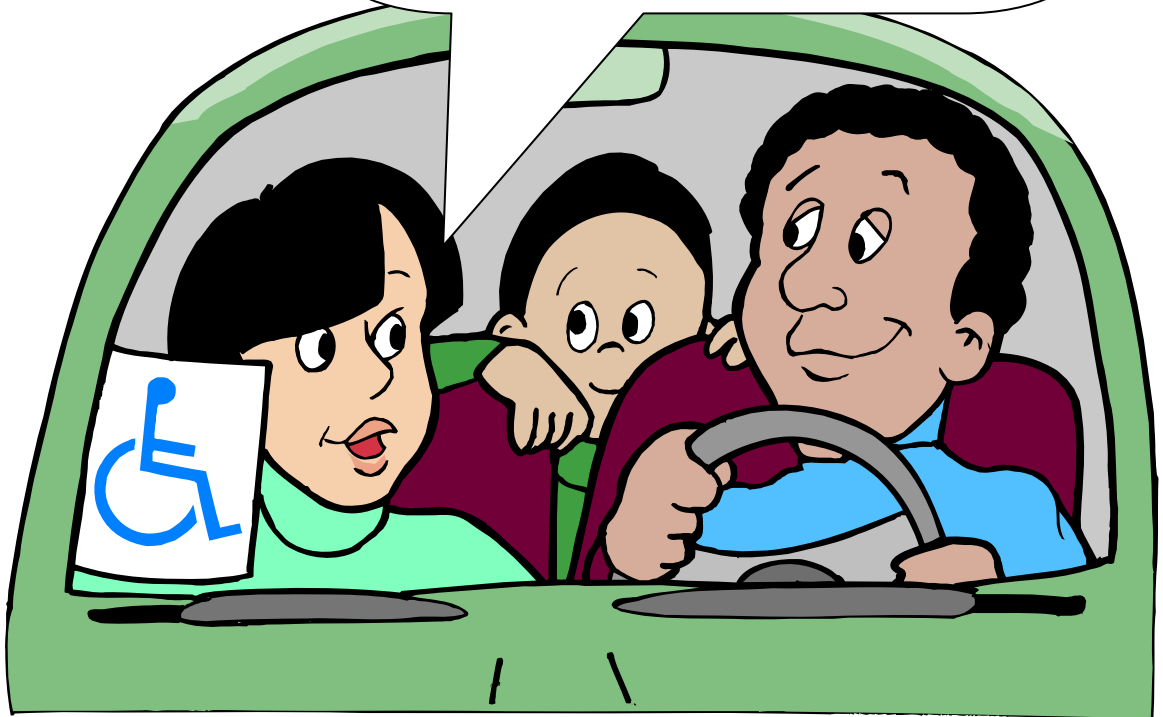

Sometimes the seatbelt might feel uncomfortable or tight.

I can usually find a way to make the seatbelt more comfortable while I ride in the car. Mom and Dad can help.

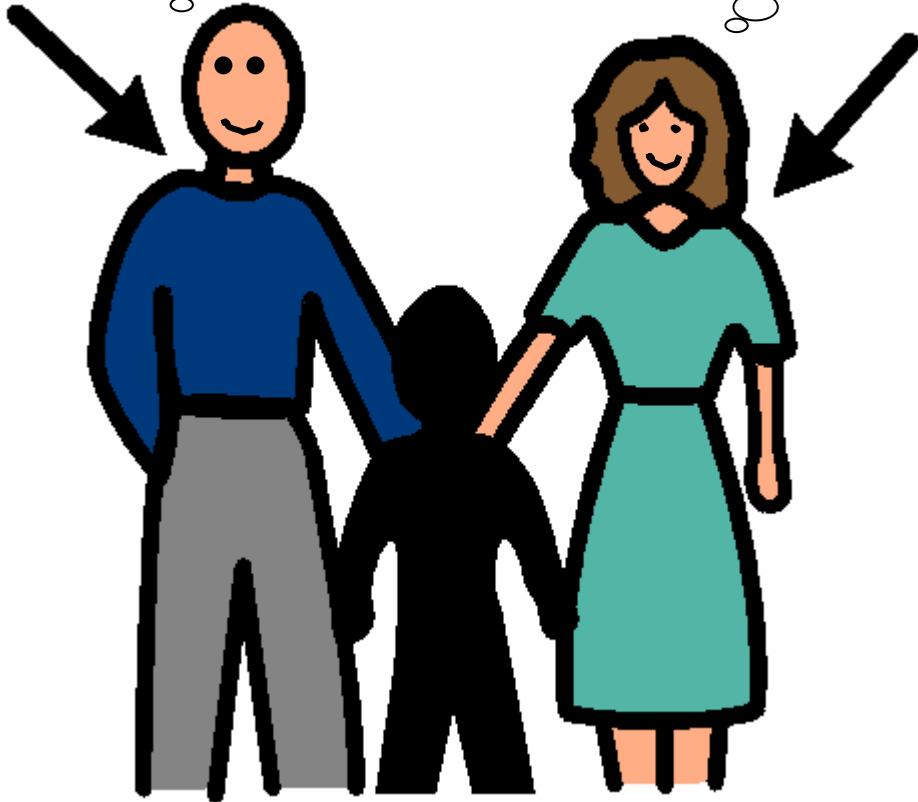

It is not time to take off your seat belt. I will let you know when the car is stopped and it is safe to take it off.

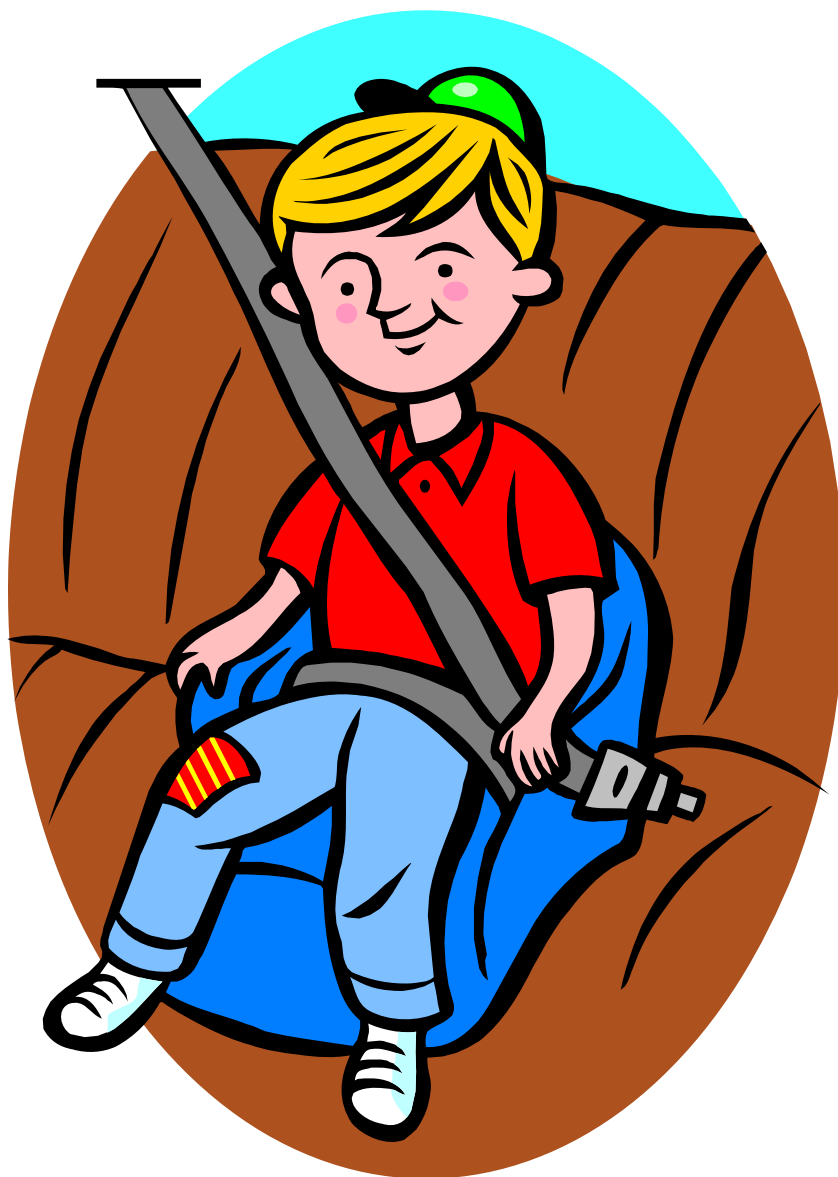

Mom and Dad know when it is safe for me to take off my seatbelt and they will tell me.

I am so proud that you leave your seat belt on.

It makes me happy when you are safe in the car.

Mom and Dad like it when I stay in my seat with my seatbelt on when I ride in the car.

I will try to stay in my seat with my seatbelt on when I ride in the car.
