

## A Statewide Support and Cooperative Approach

As your school-management software needs evolve, iTCCS helps you through the difficult transition by providing you with an intelligent, logical plan for the future.

## Cooperative Environment

By being part of a multi-district cooperative, you are a shareholder and partner. Our partners benefit from sharing resources, products, and expertise.

Ongoing user meetings allow clients to discuss strategies for handling common operational concerns, for anticipating and addressing future needs, and for determining system direction and priorities for enhancements.

## Support

A statewide network of qualified consultants serves as the backbone of iTCCS support. Whether you have a technical question, require on-site support, or simply want to learn more about iTCCS products, help is just a telephone call away. Please refer to the next panel of this brochure for the contact at your education service center.

Users are informed about system changes through regularly-provided documentation and online help. Regional training is also available for the entire iTCCS product family.

# TEXAS COMPUTER COOPERATIVE

*iTCCS Business  
and  
Student Systems*

As a product line of the Texas Computer Cooperative (TCC), the Internet-based Texas Computer Cooperative Software (iTCCS) was created specifically to address your needs for supporting next-generation district information systems.

The TCC offers a comprehensive range of powerful business and student administrative systems written specifically for school districts throughout the state of Texas.

With almost three decades of public education and software development experience, iTCCS applications are widely used in the state of Texas.

iTCCS currently services the needs of districts with as few as 300 and as many as 70,000 students.

Our software applications provide you with the proper tools for managing your school district's future and offer the following features:

- Easy access in a Windows®-based open systems environment
- Application Service Provider solution designed for school districts to reduce the cost and time to implement the software
- Administrative business and student applications for the Web
- Teacher applications for the Web such as attendance posting, attendance inquiry, student photographs, personal graduation plans, grade posting, and interim progress reports
- Automatic system updates for meeting changing state and federal mandates
- Statewide network support
- Client-driven software applications
- Automatic software updates
- Backup and disaster recovery
- Substantial savings on hardware for districts

Welcome to the future of school-managed application software.

## Diversified Capabilities

iTCCS focuses on two areas: business and student administrative software. A Public Education Information Management System (PEIMS) product complements the primary systems. PEIMS compliance is an integrated part of each application.

## Business Systems

- Accounts Receivable
- Accrued Payables
- Asset Management
- Budget
- Budget Change Request
- Cafeteria
- Employee Access
- Finance
- Payroll
- Personnel
- Position Management
- Requisition
- Work Order

The screenshot displays the iTCCS Finance Vendor Maintenance interface. At the top, it shows the user's role as 'Reporting Products' and the date '5/11/2006 11:50:15 AM'. The main heading is 'Vendor Maintenance' with a sub-heading 'WFN5820'. Below this, there are buttons for 'Save', 'Delete', 'Clear', and 'Comments'. A red message states 'VENDOR FOUND -> PLEASE ENTER DATA'. The 'Vendor Identification' section shows 'Vendor Number: 37451' and 'Name: TEXAS ASSOCIATION OF SCHOOL'. The 'Remittance Address' section includes fields for Line 1 (PERSONNEL ADMINISTRATORS), Line 2 (P O BOX 1550), Line 3 (BAYTOWN), State (TX), Zip (77522 1550), Phone (512 343 3626), and Fax. The 'Order Address' section has similar fields for Line 1, Line 2, Line 3, State, Zip, Phone, and Fax. The 'Vendor Data' section includes 'Federal ID/SSN', 'Status' (Y-Active), '1099 Eligible' (No), 'Labels', 'Board Approval Date', 'Replacement Vendor Number', 'W-9 Mail Date', 'W-9 Received Date', 'SIC Code', and 'Discount Applied to Unit Price'.

## A Family of Services

iTCCS offers a tightly-integrated product family with the best price, performance, availability, and manageability you'll find today. Software applications are designed solely for Texas school districts and maintain compliance with all state and federal reporting and accountability requirements.

Our range of products enables clients to choose the interactive software packages that suit their needs and priorities. Clients who choose the iTCCS business and student administrative packages benefit from the implementation of new processes, as well as the design and development of new applications.

iTCCS is your school-management software partner for the future: a cooperative effort that is attentive to your needs and one that offers you qualified expertise, a full product line, and comprehensive service, support, consulting, and training.
