

Adult Education Program

San Antonio Area GED Testing Centers

Beginning in February 2008, some San Antonio GED Testing Centers are requiring individuals to take the GED Official Practice Test (OPT) before registering for the actual GED exam. This is for individuals who want to take the GED exam for the first time. Any students referred to take their GED by ESC-20 Adult Education will receive the Verification of GED Official Practice Test form with their scores. The GED testing centers listed below are organized by their OPT policy as of February 2008. Students are responsible for calling the testing center to obtain updates on this policy, test prices, and registration.
